

WRITING INTERVENTION GRADES K-5

Handwriting without Tears

Children who master handwriting are better, more creative writers. The earlier we teach children to master handwriting, the more likely they are to succeed in school, and write with speed and ease in all subjects. We use fun, engaging, and developmentally appropriate instructional methods to enable children to master handwriting as an automatic and comfortable skill. Handwriting without Tears has simple activities that break complex concepts into simple lessons. Teachers find this an easy to use method for students who struggle with handwriting. Handwriting without Tears is developmentally appropriate and helps build on the skills that student have already acquired. Most of all it has a multisensory approach that addresses different learning styles and invites active student participation.

Developmentally appropriate, multisensory handwriting instruction for all learning styles in grades K-5
