MEDICATION POLICY

Please Fill Out This Section Completely

NAME: _____ BIRTHDATE: _____

As a normal and regular practice, medication should be administered at home whenever possible, but we understand that in many cases, dosages may fall into the hours when your child is at school. In these situations, the following rules must be followed:

1. The Medication Authorization form must be completed by both the parent/legal guardian and the attending physician. These forms are issued at the beginning of the school year and/or available in the school office at any time. These forms can also be faxed to the physician's office any time through the school year if changes or made in medication.
2. Parents/legal guardians are responsible for providing Parkland Preparatory Academy medication in a pharmacy bottle labeled with your child's name, medication dosage and time to be given.
3. Documentation of side effects for any prescription medication administered at school will be kept in the student's file under the "medical" tab.
4. Upon receiving the medication at Parkland Preparatory Academy, the medication monitor will count all pills in view of another adult to determine the number of pills received. The medication monitor will note receipt of all medication and number of pills received.
5. Over-the-counter medication (non-prescription) will not be given without a physician's order, as well as parental/legal guardian permission.
6. Medication will be secured in a locked cabinet. Administrative Staff or designee will administer medication logging date, time, and staff initials.
7. It is the parent/legal guardian who is responsible for notifying the school medication monitor and having the physician complete a new form when changes are made.
8. In the instance when a dose of medication is spilled, dropped and destroyed prior to administration, a new dose will be administered. Parents/legal guardians will be notified in writing on the day of the occurrence that one dose of medication was destroyed and unusable.
9. Unused medication shall either be picked up by the parent/legal guardian or, after a two week period, destroyed. Staff will destroy the medication in view of a witness and log date, time and staff involved in the destruction.

PHYSICAL MANAGEMENT POLICY

PHYSICAL MANAGEMENT POLICY

NAME: _____ BIRTHDATE: _____

Physical Management may be used with students who are behaving in an unsafe manner. It is the policy of Parkland Preparatory Academy that physical restraint is used as a last resort and used only in the following situations:

1. The student is a danger to himself or herself.
2. The student is a danger to others (staff, students, etc.)

When a student engages in behaviors listed above, he / she may require physical management. If a student is unable to gain control of his or her behavior through counseling and/or physical management, a parent/legal guardian or local authorities may be called to intervene and maintain the safety of the student and others.

This policy is applicable to all students who attend Parkland Preparatory Academy. Physical management will only be used as a last resort for the safety of my student, as well as other students and staff. All staff at Parkland Preparatory Academy are certified and trained in Non-violent Crisis Prevention.

By enrolling, and allowing my student to attend Parkland Preparatory Academy, I acknowledge there is a physical management policy in place and if my student ever requires physical management I will be contacted.
